APRIL IS PARKINSON'S AWARENESS MONTH

Parkinson's disease (PD) is a chronic and progressive movement disorder, meaning that symptoms continue and worsen over time. Nearly one million people in the US are living with Parkinson's disease. The cause is unknown, and although there is no present cure, there are treatment options to be aware of like LSVT BIG and LOUD to help manage your symptoms. LSVT BIG and LOUD are the only treatments other than medication to produce positive outcomes. Pipestone County Medical Center Rehabilitation Services have 3 therapists that are certified in LSVT BIG and LOUD, Physical and Speech therapy treatments for individuals with Parkinson Disease or other neurological conditions. LSVT (Lee Silverman Voice Treatment) BIG and LOUD is based on amplitude training with high effort/intense exercises to assist in retraining the brain to improve your voice and movement to be more natural.
